

# HP DesignJet T730 36-in Printer

36-inch, robust and compact Wi-Fi printer for CAD and general-purpose applications

## SMART—Invest in a robust printer

- Robust, compact, and professional—this printer fits your business and gives you space to work.
- Produces prints 3 times faster than previous HP models—see A1/D-size prints delivered in 25 seconds.
- Choose from 130/300-ml HP ink cartridges to fit your print volume, large supplies can reduce interventions.

## EASY—Convenient printing helps reduce time, waste

- Cut waste by 50%—print at half scale with automatic sheet feeder/tray; cut extra work, waste of wide rolls.<sup>1</sup>
- No LAN needed—move this printer any time, any place your Wi-Fi signal can reach with wireless connectivity.<sup>2</sup>
- Easily print project sets and PDF documents with HP Click printing software.
- Redesigned stand reduces CO2e up to 130 tons/year by units sold.<sup>3</sup>

## MOBILE—Easily print from smartphone or tablet<sup>2</sup>

- Print from mobile devices in a few simple clicks with HP Mobile Printing<sup>2</sup>—quickly work through revisions.
- If you're on-the-go, attach your document to an email and send it directly to your printer via ePrint.<sup>2</sup>
- Use the HP Smart app<sup>4</sup> to access additional print features when printing from a mobile device.
- The printer creates its own Wi-Fi network for easy connectivity with Wi-Fi Direct.

This printer is intended to work only with cartridges that have a new or reused HP chip, and it uses dynamic security measures to block cartridges using a non-HP chip. Periodic firmware updates will maintain the effectiveness of these measures and block cartridges that previously worked. A reused HP chip enables the use of reused, remanufactured, and refilled cartridges. More at: <http://www.hp.com/learn/ds>

<sup>1</sup> Printing on sheets eliminates the extra work and cutting waste of printing on performance equivalent roll-based printers in the market as of September, 2015. For example, printing at half scale (13.5 inches) on a typical (36-inch) roll results in over 50% paper waste and additional labor to cut.  
<sup>2</sup> Local printing requires mobile device and printer to be on the same network (usually Wi-Fi access points bridge wireless to wired connections) or have a direct wireless connection. Wireless performance is dependent on physical environment and distance from access point. Wireless operations are compatible with 2.4 GHz operations only. Remote printing requires an Internet connection to an HP web-connected printer. Wireless broadband use requires separately purchased service contract for mobile devices. Check with service provider for coverage and availability in your area. See <http://www.hp.com/go/designjetmobility> for more details.  
<sup>3</sup> Redesigned stand with reduced material usage and 28% weight reduction compared to the previous stand model used in HP DesignJet T730 Printer. Based on calculations in accordance with ISO 14040/14044 Life Cycle Assessments using ReCiPe (H) v. 1.1 (2016) on GaBi 8.5 (2018) software and scaled to reflect expected yearly sales.  
<sup>4</sup> The HP Smart app is available for Apple® iPad, iPhone, and iPod Touch running iOS v12.0 or later and for Android™ mobile devices running Android™ v7 (Nougat) or later. The HP Smart app is available for free from the Apple® App Store for Apple® mobile devices and from the Google Play Store for Android™ mobile devices.
