Choose the smartest way to share your best ideas

With the RICOH® MP C2004SP/MP C2504SP, you can customise the way you work with iconic automated shortcuts, user-specific security controls and fingertip access to critical information via our solution-focused, Workstyle Innovation Technology. Use the intuitive touchscreen control panel to print impressive full-colour documents. Scan and distribute originals to anyone, anywhere in moments. Access information easily from the Cloud. What's more, you can do it all from your smartphone or tablet. Place this affordable, compact device in smaller, shared office environments, so your entire workgroup can manage every job — from start to finish — with speed, accuracy and accountability.

• Deliver up to 25 colour pages per minute
• Perform a wide range of tasks rapidly via intuitive touchscreen controls
• Create your own workflows and shortcuts to simplify everyday tasks
• Use your personal mobile device to print and share information
• Produce professional output in brilliant colours with impressive finishing
• Reduce operating costs with a wide range of eco-friendly features
• New Human Detection Sensor technology promotes fast system recovery

Use mobile convenience to stay productive.

You don't know what the day will bring or where it will take you, but you can stay productive using your smartphone or tablet. Simply download the RICOH Smart Device Connector App and get started by scanning the QR code on the display panel, or utilise Bluetooth technology or tap your device by the Near Field Communication (NFC) tag on the MFP. Print information directly from your personal device or from your favorite Cloud application and avoid utilities, software and drivers. Scan originals at the MFP, send them to your smartphone or tablet and carry the digital PDFs with you. Use any of the Scan-to options to share them with recipients in your personal address book in only moments. You can even take advantage of an optional dual network port and connect to multiple networks simultaneously.

Control what happens next.

You crafted your message carefully. You need to be just as cautious in getting it to your audience. Use the MP C2004SP/ MP C2504SP to track activity, set print quotas and restrict access to specific functions. Require every user to login to the device with a passcode or billing code. Or, add the optional NFC card reader so users gain access via their ID card for a choice of cost recovery solutions. Use Locked Print to hold print jobs at the device until the author releases them to protect confidential information from being seen by passersby. Add watermarks to help prevent unauthorised copies of important information. Plus, you can take advantage of powerful encryption tools and automatic overwrite technology for latent information residing on the hard drive.

Add a personal touch to everyday tasks

Streamline business with a whole new way to work.

More productive workflows are within your grasp. Actually, they are at your fingertips. Use RICOH's Workstyle Innovation Technology to simplify how you manage your information on the 10.1" wide Super VGA touchscreen Smart Operational Panel. We have removed all hard keys, so you can use the same swipe scrolling, drag-and-drop and pinch-flick gestures you use on your smartphone or tablet to access settings and details faster and more conveniently. Simply tap an icon to begin core tasks like printing, scanning, copying and faxing. Choose which icons, options and notifications appear on your unique user interface to customise each user experience.

Access vital information when you need it most.

When you are more informed, you can be more productive. Follow the intuitive grid design of the touchscreen to find information easily. Take your pick from a wide range of embedded Apps and simplify even your most complex workflows. Each App includes important details about specific jobs and tasks. For example, you can check Scan-to destinations, review finishing options, search fax confirmations and more. Use that information to make adjustments instantly with a swipe or tap. For even more ways to improve work efficiency, you can download free, intuitive Apps from the Ricoh Application Site and add them as new icons to the Home Screen. Information is everywhere, including online. With the MP C2004SP/MP C2504SP, you can access web pages and convert them into PDFs for easy distribution.

Put personalisation at your fingertips.

You know what you're doing. Leverage that knowledge to be more efficient. With Workstyle Innovation Technology, you can integrate multiple processes, simplify complex tasks and bypass many of the mundane, repetitive manual tasks that slow you down. For example, you can scan each week's sales meeting notes and share them with the same recipients in a single touch from the Home Screen. Take advantage of one-touch controls for special tasks too. Press the ID Card Copy icon to scan two-sided documents such as licenses or insurance cards onto a single-sided document in a single pass. For more advanced workflows, you can add optional plug-and-play workflow software to automate the way you manage information and help reduce operating costs.
